ZFX-0 GAUGE USER'S MANUAL

Form #1005 - Rev. 02/08

SAFE RIGGER GAUGE

Use this hole to attach the ZFX-0 Gauge to your Nicopress tool so your peers will gauge you to be a safe rigger

WIRE ROPE GAUGE

Use this to check your rope size. Corresponding diameter measurement is to the right

CRIMP GAUGE

Use this to check that your Nico-Sleeve (Ferrule) has been crimped properly. The matching Nicopress Groove is labeled to the right. If the crimped sleeve doesn't fit, cut the splice off and adjust the tool.

IN-LINE GAUGES AND LABELS

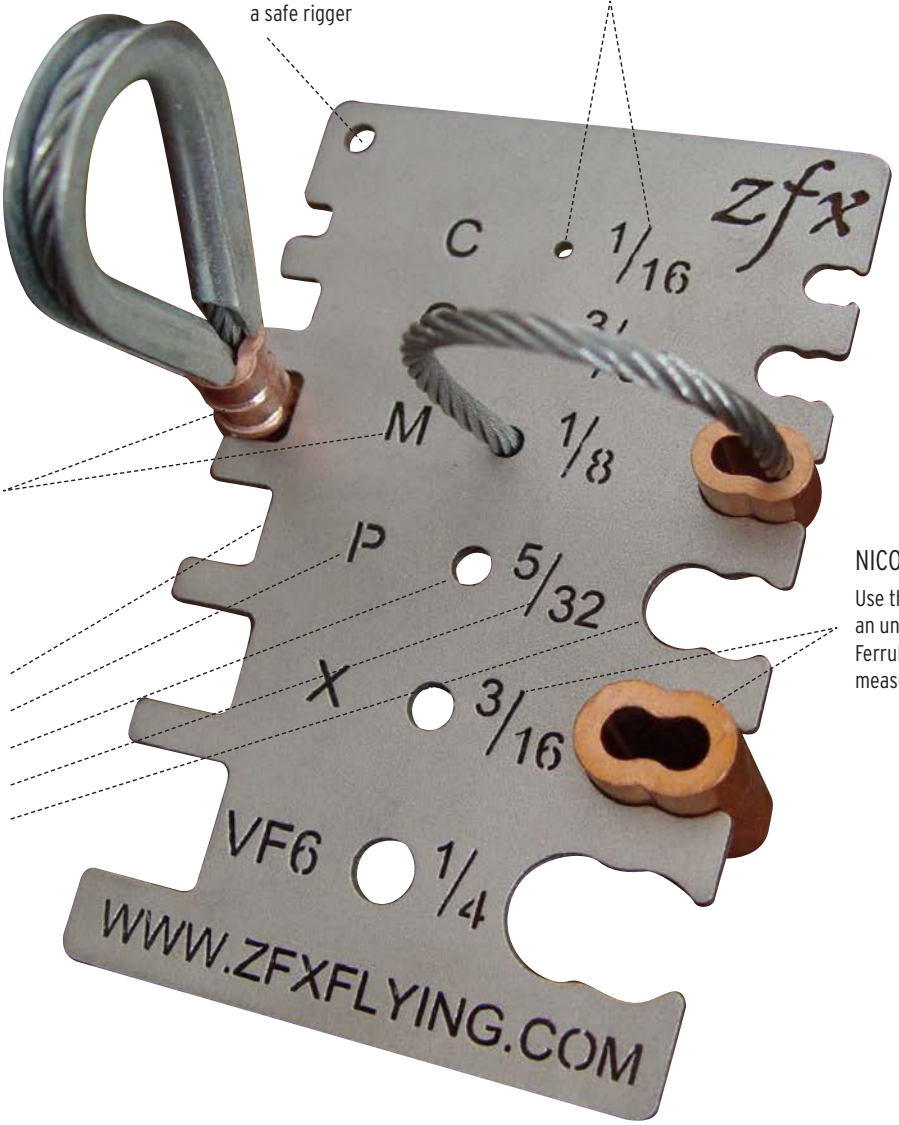
Crimp Gauge

Matching Nicopress Groove Label For making eye-splices

Wire Rope Gauge

Wire Rope Size Label

Sleeve Gauge



NICO SLEEVE GAUGE

Use this to check the size of an unlabeled Nico Sleeve (Oval Ferrule). Corresponding fractional measurement is listed to the left

IMPORTANT NOTES

The wire rope size only corresponds to the Crimp Groove and Crimp Gauge when making eyes and only with copper or copper plated sleeves! Other sleeve types (like stainless steel) use different gauges or crimp grooves! Please consult the owner's manual when using them!

The crimp gauge (Compressed Ferrule Gauge) is for use with Nicopress brand tools only. Other tools have different sizing.

Check every crimp, Every time!

RIGGING IS DANGEROUS, IF YOU DON'T KNOW WHAT YOUR DOING, DON'T DO IT. YOU COULD KILL SOMEONE!

Nicopress is a registered trademark of the National Telephone Supply Co.
